Skills

Programming Languages
- Proficient: Java, Python, Oracle SQL, HTML, CSS
- Other: MySQL, C++, PHP, Sass, JavaScript

Software and Others
- VSCode, NetBeans, Scene Builder, SQLDeveloper, Git
- Windows, Linux
- Google Cloud Platform
- Microsoft Office, OnlyOffice
- Star UML, Creately
- Photoshop, GIMP, Canva, Figma

Languages
- Native Indonesian
- Proficient English
- Elementary Chinese, French, Japanese, Korean

Testing, Debugging, Troubleshooting
- Manual logic, reverse engineering, or software tools; test various scenarios
- Able to understand program from codes or final result

Documentation & Organizing
- Manage structured documentation

Project Management
- Finish tasks simultaneously

Teamwork & Amiable
- Able to work with almost anyone
- Flexible in task delegation
- Could bridge two sides if needed

Commitment & Diligence
- Seek solution until get desired result
- Finish task until the end

Quick Application
- Apply what has been learnt

Other Interests

Games
- Develop, playing (RPG, mystery)

Languages
- Learning, reading, writing

Art
- Manual, digital, editing

Music
- Listening, singing, instrumental

Education

Bachelor of Computer in Software Engineering
- STMIK LIKMI, Bandung (2019 - expected 2023)
- GPA 4.0

High School Diploma in Science
- St. Aloysius 1, Bandung (2016 - 2019)
- Final rank 2 in class, Choir and Science Club Member

Projects

Portfolio Website (2021)
- Individual; HTML, CSS, JavaScript, PHP

Software to Manage Goods (2021 - Now)
- Group of 3 people; Java, Oracle SQL
- Programmed >70% codes, maintained consistency through organized project files and coding resources

Software to Sell Fish (2020)
- Group of 5 people; Java FXML
- Led project, made >75% codes, presented structured planning

Therapist Bot (2020 - Now, migrating to Python)
- Individual; Android, MIT App Inventor
- Developed simple Natural Language Processing

Web about Bandung Nature Tour (2019)
- Group of 3 people; HTML, CSS
- Hosted site with a free limited domain

Competition and Training Certification

IBM Cybfun.1.0: Cybersecurity Basics on edX
- IBM on edX (2021)

Shopee Code League 2021 Participation
- Shopee, 2021

TOEFL Prediction Result (Score: 620)
- TOEFL on LIKMI (2020)

Elements of AI
- University of Helsinki, 2020

HTML&CSS, JavaScript, Sass, SQL, Java Certification
- Progate, 2020

Information and Communication Technology for SMA
- Binus Nusantara, 2019

Fermat Contest Participation
- University of Waterloo, 2018

Organization

L-KOM
- Currently as Vice-Leader
- LVL E-Sport Competition (2020) as Financial Manager

PMK
- Currently as coordinator at Prayer Movement
- Speaker and prayer in Worship
- Usher at Christmas 2019

FEDORA YOSHE JUANDY

November 29, 2021

Juliana Silva
Head of Human Resources
Iconography Clothing Co.
123 Miller Street, Westwood,
South Carolina 12345

Dear Mr./Mrs./Ms.,

This letter is written in regard to my interest in applying for the offered Internship position posted on LIKMI Internship. As I am a fast learner with analytical and critical thinking as well as persistent mindset, I am suited for the internship program and become one of the contributors.

I have been learning and making various software for about five years since high school, discounting previous ones that I have made since late elementary. While maintaining top grades in formal education, I use my spare time to learn more about programming in online courses and exploring projects independently.

I am goal-oriented person and if a problem needs to be solved, it has to be solved. The internet is a vast source of information and I believe, programming is not all about memorizing syntax, but how one's mind is able to analyze the problem and come up with the solution of the said problem with or without searching further information. Reverse engineering could also be used to the way a program should work. I am able to apply knowledge into real life application and I have excellent ability to adapt into new technologies, software, and programming languages. Sometimes, I join competition in math and programming to test my capabilities.

I was chosen as one of the students to take additional courses on Kampus Merdeka, which opportunity I have taken to study about cyber security at IBM and computer science at Harvard on edX. While maintaining my main responsibilities, I join L-KOM to further deepen my knowledge in technology and PMK as a spiritual medium. I have much experience in leading group projects; mainly finishing the programming part, delegating task, and making sure all conditions are fulfilled. I often take part of bridging between two sides for certain reasons. I am able to work with various people as well as situations where focus is needed in pressure to handle stuff in last minute. I often find innovative solution to a problem, sometimes unorthodox.

I find this incredible opportunity as a way to help others in their projects and enhance my career prospects as well as life in general to be able to work with hard-working and talented people.I have attached my CV at this document. Some of my projects could be viewed at my GitHub profile, minus the private and unfinished projects. I thank you for your time and consideration, I am looking forward to hearing from you regarding the next steps.

Best Regards,

Fedora Yoshe Juandy

Software engineering student who loves technology since little. Loves challenges, solving the 'unsolvable', and learning various knowledge. Seeks opportunities to help people with existing skills and knowledge, while improving and adding more of them.

Next, provide examples of why you're the right person for the job.

- Don't hesitate to use bullet points and include numbers that showcase your achievements.
- Rather than simply describe what you've done in previous jobs, show the recruiter or hiring manager what you can bring to the role.
- Express your passion and excitement to be part of the company and the team.

PROFESSIONAL SUMMARY

A tech-savvy individual with a Bachelor's degree in Software Development seeking employment as a mobile game developer. Passionate about learning and consistently advancing my knowledge and skills. Attended multiple seminars and bootcamps on coding and game development.

SKILLS AND PROFICIENCIES

Project and Time Management

- Successfully completed two basic coding projects simultaneously.
- Created a project timeline for our intern group that was later adapted by management for other groups.
- Organized project files and coding resources which led to faster project turnaround.

<FEDORA YOSHE JUANDY> </Software Engineer>
